

Checking tests are designed to measure your ability to compare information quickly and accurately, which is critical to ensuring the quality of work. In the example below, each question shows you a piece of data on the left side. You must match this to the correct data from a list on the right side, which contains similar – but not identical – samples.

19508	<input type="checkbox"/>	19580
	<input type="checkbox"/>	19085
	<input type="checkbox"/>	19058
	<input type="checkbox"/>	19850
	<input type="checkbox"/>	19508
